CFK-7700 Wide Area Network Gateway

The CFK-7700 WAN Gateway provides a converged IP gateway solution for demanding environments in a compact, highly portable package. The 7700 incorporates a Cisco 2811 Integrated Services Router with Advanced IP Services, a protocol enhancement proxy, and encryption.

Key Features

The Norsat CFK-7700 WAN Gateway was created with high portability for demanding environments. Key features include:

- Cisco IOS and advanced IP services
- 802.3af power-over-ethernet for VoIP support
- Filtered high capacity air flow
- Front panel LED status display
- Front panel duplex courtesy outlet
- Diverse Powering: AC or DC
- 4200V variant adds support for video capture and editing

Norsat Global Customer Support

All CFK kits are supported by Norsat's global customer support team, who provide assistance for a range of technical issues. Customer support may include installation, training, trouble-shooting, application support, and 24/7/365 support is available to support mission critical applications.

NORSAT CFK-7700 WIDE AREA NETWORK GATEWAY
