CFK MiniKit- Compact Flyaway Kit

(CFK-0030)

A lighter variant of our full-featured packages, the Norsat CFK-MiniKit is a single cased flyaway kit packed with only the essentials for remote communications: a Thrane & Thrane Explorer 700 BGAN satellite terminal, a ruggedized Panasonic CF-19 Toughbook laptop, a Cisco ASA5505 security services module, and an optional Iridium satellite phone. The kit also includes a power inverter with cigarette light adapter and battery clamps to power from a vehicle.

Key Features

The Norsat CFK-MiniKit is a high performance fly-away kit packaged in one airline carry-on case. These kits can be used with a customer furnished encryption device (or orderable option) to provide secure or non-secure (red or black) communications over satellite. Key features include:

- Panasonic CF-19 Toughbook Laptop
- Thrane & Thrane Explorer 700 BGAN satellite terminal
- Iridium 9505A satellite phone (optional)
- Cisco ASA 5505 Ethernet Security Services Module

Norsat Global Customer Support

All Satcom Baseband Kits are supported by Norsat's global customer support team, who provide assistance for a range of technical issues. Customer support may include installation, training, trouble-shooting, application support, and 24/7/365 support is available to support mission critical applications.
